

Release Notes

August 2021

CoreLogic Database Update

Summary of Changes:

- 245 new Item Operations added for the August Database Update
- 3 RFI's closed for the month of July

Database Updates:

- Standard monthly material price update
- Material price update for all lumber and wood sheathing items to keep pace with extreme price increases in the lumber market.
- New Items Include: Self Contained AC Units, Door Push Plates, Door Pull Plates, Judges Paneling, and more.

Item Image Updates:

- No new images were added for the August database update.

- 1221 total images have been completed to date, covering 2013 specific line items. Future monthly updates will continue to have new images added as they are completed, as we continue to work toward the ultimate goal of building a comprehensive library of brand new images for the majority of items in the database.

Assembly Updates:

(Fixes and Updates - Assemblies)

- Decks
 - Added options for treated pine fascia
 - Added question for LF of deck joists paint/stain if applicable
 - Added option for deck lattice
- Fencing
 - Updated for new options of tree removal sizes added for the July database release.
- Flooring
 - Repaired option for scrape rubber residue when selecting various applicable carpet types. Line item was not populating previously.
- Interior Ceilings
 - Repaired all options related to suspended ceiling tiles with new items released for the August database update.

CoreLogic®
