

Release Notes

CoreLogic Database Update May 2022

Summary of Changes

- 723 new Item Operations added for the May Database Update
- 4 RFI's closed for the month of April

Database Updates

- Standard monthly material price update
- New Items Include: Hardwood Paneling, ¾" T&G Sheathing, T1-11 Skirting Panels, Suspended LED Light Fixtures and Whole House Attic Fans.
- Cleaning Category Expansion: A new level of cleaning has been added to the database within the structure cleaning categories to provide a broader range of options to our customers. This necessitated a re-organization of the current clean options in the database. Users will now find three cleaning actions with each structural cleaning item (if applicable).

Clean, Light – Replaces the former Clean action. Typically consists of a single pass with rags and cleaning solution or a pressure washer to remove construction dust and dirt.

Clean – Replaces the former Clean, Heavy action. Typically consists of more than one pass on an item with rags and cleaning solution or a pressure washer.

Clean, Heavy – New option for May 2022 and moving forward. Typically consists of multiple passes on an item. May include rags & cleaning solution and the use of a dry sponge or the heavy use of a pressure washer. Includes detail cleaning.

 As part of CoreLogic's continual commitment to our customers and our products, our claims labor rate data reflects market driven increases in this month's release. Notable adjustments have been made to the Electrician, Pipefitter, Plumber and HVAC trades as part of the May update.

Item Image Updates

- No new images were added for the May database update.
- 1358 total images have been completed to date, covering 2186 specific line items.
 Future monthly updates will continue to have new images added as they are completed, as we continue to work toward the ultimate goal of building a comprehensive library of brand-new images for the majority of items in the database.

Assembly Updates

(Fixes and Updates - Assemblies)

- Contents Packout & Cleaning
 - Updated cleaning items in the assembly to populate correct quantities after selections are made.
 - o Removed four cleaning options that no longer exist in the database.
- Flooring
 - Updated some of the base molding item outputs, to make sure the correct items generate when the estimate is created. All options should now work correctly.
 - The quantity formula for door casing items has been updated to only apply to doors. Previously this was applying to doors and windows.

Desk Adjuster Updates

(Fixes and Updates – Desk Adjuster)

None

.RFI's closed during April 2022

ID	Title	Content	Comments
IS-55885	7/16" OSB Sheathing items.	Client request to add 7/16" OSB options for sheathing items.	CoreLogic will add the following items: Sheathing, Material Only 7/16" OSB Sheathing, Roof OSB, 7/16" Sheathing, Wall OSB, 7/16" Subfloor, OSB, 7/16"
IS-57382	T Post for clothes lines	Client request to add T Posts used for clotheslines to the database.	CoreLogic will add the item Clothesline, T-Post. New Item should be available in Q3
IS-56423	Price review on Chain Link Fencing	Client request to review pricing on the items in the FEN – Chain Link Fences category in Murrysville, PA region.	CoreLogic will review pricing on Chain Link Fence components. Any update to pricing should be complete for the July/August database update.
IS-55881	Price Review on sheathing items.	Client request to review pricing of OSB and Plywood items in the FRM - Sheathing category.	CoreLogic will review the pricing of sheathing items in the FRM — Sheathing category. Any update to pricing should be complete for the July/August database update.
