

# **EagleView Integration**

## Setting Company Default Value for Number of Structures

#### Step 1

Company Admin user logs into Claims Connect.

# Step 2

In the Admin Menu, Company Admin selects Integrations link.

## Step 5

Company Admin clicks the dropdown menu and selects their company preference.

Company Defaults		
Number of structures to be measured:	All Structures on Parcel	
	Primary Structure	
	Primary Structure + Detached Garage	
	All Structures on Parcel	

corelogic.com

	This preference will dictate what prepopulates in a Company User's EagleView Order whenever they
	for their types of orders. The Company User can edit the selection within a specific order being
	placed.
	*System Defaults to Primary Structure
	Step 6
	Company Admin clicks Save to save the settings.
	Company Defaults
	Number of structures to be measured: All Structures on Parcel
	Save Cancel

Saved successfully	×

# Step 7

Company Admin signs out of Claims Connect.
