RFI's closed during March 2017

ID	Title	Content	Comments
5506	Gut per SF	We have a line item for demo of home per SF. There is no line item for gut or tear out per SF. Can we get that line item added? It will help a lot when dealing with large loss claims.	CoreLogic will add a Gut per SF item to the database. This new item will be for tearing out everything down to the studs.

New Items Added for the April Database Update
