

Release Notes

April 2018

CoreLogic Database Update

Summary of Changes:

- 2 RFIs closed for the month of March
- 24 new item operations added for the April update

Database Updates:

 Moved Scrape Lumber and Scrape Wood Frame items from the FRM-Lumber category to the CLN-Structure category

RFI's closed during March 2018

ID	Title	Content	Comments
5636	Studded T-Post	Client would like to add a specific item to the database. Could you please a studded T-Post to the database?	CoreLogic will add a studded T-Post to the database. This item should be available for the June database update.
5637	Remove/Reset Satellite Dish	Does the remove/reset operation for satellite dish include the cost for recalibration? Can the description be updated to reflect either way?	The remove/reset operation for Satellite Dish, Mini does not include recalibration. CoreLogic will update the comments to reflect this as well as add a separate line item to recalibrate/align the satellite dish. This used to be an included service from the satellite providers but they are charging homeowners more often now to realign.
