| ID | Title | Content | Comments |
|---|---|---|---|
| 5626 | Box Gutter | There does not appear to be anything for box gutters in the database.  A box gutter, parallel gutter, or trough gutter is a rain gutter on a roof usually rectangular.  It may be lined with EPDM rubber, metal, asphalt, or roofing felt, and may be concealed behind a parapet, eaves, or in a roof valley. | CoreLogic does not plan on adding these gutters to the database at this time due to the very specific and unique situations encountered. It would be difficult to get an accurate price because of the many variables involved with this style of gutter at each loss location. |
| 5629 | Paddle Fan with Light | User would like to update items in the database. Specifically, Paddle fan light fixture is not in the database.  There seems to be two items in the database. Ceiling fan and Light Kit, Ceiling Fan. The Light Kit option seems to suggest adding a light to a ceiling fan. | Lights for ceiling/paddle fans are already included in the database under the light fixture category. The items are labeled Light Kit, Ceiling Fan and come in three grades of fixtures. |
| 5632 | Commercial Gutters | The customer wants more options for commercial gutters, specifically, to have prefinished commercial box gutters and downspouts made available. | CoreLogic recommends using the 8" and 10" sizes in both galvanized and stainless steel gutter options. These are commercial grade box style gutters and are found in the SFG-Gutter category. |

# New Items Added for the March 2018 Database Update

| Category | Item Description | Action | UOM |
