

## **Release Notes**

**February 2021**

### **CoreLogic Database Update**

#### **Summary of Changes:**

- 219 new Item Operations added for the February Database Update

#### **Database Updates:**

- Standard monthly material price update
- New Items Include: Rental Equipment per HR, AFCI Electrical Service, Flexible Ductwork, New Metal Stud Options, and many more.
- ITEL options were expanded for Roof Shingles and Siding. These new options will allow for waste, ancillary materials, and useful lives to be accounted for similar to the ITEL options in the Flooring category.

#### **Item Image Updates:**

- 25 new images have been rendered, completed, and uploaded for the February database update.
- Images focus on the 'electrical' and 'fencing' categories and correspond to 25 specific line items.
- 1035 total images have been completed to date, covering 1827 specific line items. Future monthly updates will continue to have new images added as they are completed, as we continue to work toward the ultimate goal of building a comprehensive library of brand new images for the majority of items in the database.

## **Assembly Updates:**

### ***(Fixes and Updates - Assemblies)***

- Asphalt Roofing
  - Added new ITTEL shingle line item options for respective shingle choice within the assembly.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Cabinetry
  - Significant update of cabinetry assembly completed.
  - Added new option for tandem axle dump trailer to the available debris removal containers.

- Allowed for multiple kitchen sink options (single and double)
- Allowed for remove and reset, reset of faucet in addition to replacing or tear out and replacing.
- Added direction on cabinet grade choice.
- Updated to add 2 supply line items when supply lines are selected.
- Corrected error on sub-deck option where it was being added when selecting that it should not be included.
- Added options for remove/reset of sink and accessories as appropriate based on choices.
- Updated tooltip on why painting/staining when re-facing cabinets.
- Corrected depreciation on end panels (was not applying when selected).
- Changed action of supply lines and p-trap to remove and replace vs. remove and reset as plumbers typically won't remove and reset due to liability concerns.
- Changed action on re-facing to remove vs. tear out as additional care should be used performing this type of repair.
- Removed pulls/handles from list of options when choosing re-facing as this is included in the re-facing line item.
- Repaired issue with full height cabinetry where the line items were not populating.
- Removed backsplash question when selecting laminate countertop as this is included in the line item. Also added an additional question for the laminate countertop if there is a backsplash return that needs to be accounted for.

- Removed default answer of vanity when selecting bathroom so the user does not miss the opportunity to add medicine cabinet if needed.
- Decks
  - Removed stair stringer questions to avoid overlap with stair questions.
  - Fixed an issue with power wash where it was not populating the line item due to a database update.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Fencing
  - Significant update of fencing assembly completed.
  - Corrected an issue with tree removal items not correctly applying coverage.
  - Added for remove and reset of fence gate if not damaged.
  - Added for LF entry of replacement and/or remove and reset of fencing depending on the loss scenario rather than assuming full replacement for every claim.
  - Added for LF entry of paint/finish of the fence depending on the loss scenario of the claim.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Flooring
  - Significant update of flooring assembly completed.
  - Added option for ceramic tile threshold if needed for loss scenario.

- Add option for subfloor damage and ability to outline the damaged area to add to the estimate via the assembly.
- Added options for remove/reset of appliances.
- Corrected issue where choosing clean and relay of carpet was not resulting in the appropriate items populating.
- Added option for ITEL selection of tile flooring
- Added granite floor tile option within tile flooring selections.
- Added new option for tandem axle dump trailer to the available debris removal containers.
- Garage Doors
  - Corrected issue where none of the items were populating coverage correctly.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Interior Ceilings
  - Significant update of interior ceilings assembly completed.
  - Modified assembly to allow the user to select floor and/or wall protection rather than have this as an automatic assumption.
  - Added option for additional drywall thickness (1/2" or 5/8").
  - Added options to account for lath or blueboard damage when estimating for plaster.
  - Added additional options for trim present, including cove molding, quarter round, and 1x4 trim.

- Updated painters work tool tip to better assist the user for when to select this as an option.
- Created text 'flag' if a user selects to remove and replace and also remove and reset the same light, fan, HVAC or electrical item to remind the user to review for overlap.
- Updated the visibility of trim items depending on items selected.
- Added new option for tandem axle dump trailer to the available debris removal containers.
- Interior Walls
  - Allowed for manual entry of LF of flood cut drywall rather than having it default to the perimeter LF of the room. This will better allow the assembly to be run without revision needed after.
  - Allowed for manual selection of floor protection, mask and prep, and painters work on every loss scenario.
  - Corrected shoe molding line items populating when selecting build back only.
  - Corrected an issue where some of the paneling options were not populating when selected.
  - Added options to account for lath or blueboard damage when estimating for plaster.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Low Slope Roofing

- Added new option for tandem axle dump trailer to the available debris removal containers.
- Metal Roofing
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Screen Enclosure\_Roof
  - Corrected an issue where solar re-screening was populating when regular re-screening was selected.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Screen Enclosure\_Walls
  - Added line items to remove and reset kickplates if they are marked as present but are not selected to replace.
  - Changed question regarding pool cleanup to have the user enter the number of hours needed rather than always assuming 1 hour.
  - Corrected issue where the quantity of re-screening was populating incorrectly.
  - Added new option for tandem axle dump trailer to the available debris removal containers.
- Siding
  - Added wood / hardboard siding options to the assembly.

- Added wood / hardboard siding ancillary items (window trim, corner posts, drip cap, caulking, painting/staining, pressure washing etc).
- Added new option for tandem axle dump trailer to the available debris removal containers.
- Tile Roofing
  - Added new option for tandem axle dump trailer to the available debris removal containers.

## Desk Adjuster Updates:

### *(Fixes and Updates – Desk Adjuster)*

- None

## New Items Added for the February 2021 Database Update

Category	Item Description	Action	UOM
EQP - Equipment Rentals	Skid Steer Loader, per Hour 1 YD Bucket	Special	HR
EQP - Equipment Rentals	Skid Steer Loader, per Hour 1-1/2 YD Bucket	Special	HR
EQP - Equipment Rentals	Backhoe Mini Excavator, Per Hour 10.5'	Special	HR
EQP - Equipment Rentals	Backhoe Mini Excavator, Per Hour 5'	Special	HR
