
Release Notes

CoreLogic Database Update December 2022

Summary of Changes

- 259 new Item Operations added for the December Database Update

Database Updates

- Standard monthly material price update
- New Items Include: Commercial grade convection ovens, commercial grade steam kettles, commercial grade ranges, attic access panels, and more.

[Claims Construction Bulletin](#)

- To keep our clients informed of current market trends, CoreLogic® has curated a monthly bulletin of trending cost variations for various loss types by regions within the U.S.

Item Image Updates

- 50 new images were added for the November database update.
- 1590 total images are now present in the database, covering 2709 specific line items.

Assembly Updates

(Fixes and Updates - Assemblies)

- Masonry, Brick, & Stone

- Replaced 'Stucco on Masonry Wall on Block Wall' with 'Stucco on Masonry Wall on Masonry'. The previous item has been removed from the database as it became obsolete.
- Contents Pack Out & Cleaning
 - Repaired options for clean of ottoman, clean of leather sofa, and mattress crib. Due to database changes, the items were no longer populating. This is now functioning correctly.
- Decks
 - Repaired options for Ipe Handrail and Homeowner Labor (Insured Labor Rate). Due to database changes, the items were no longer populating. This is now functioning correctly.
- Fencing
 - Repaired option for Homeowner Labor (Insured Labor Rate). Due to database changes, the item was no longer populating. This is now functioning correctly.
- Flooring
 - Repaired options for steam clean of carpet. Due to database changes, the item was no longer populating. This is now functioning correctly.
 - Replaced option for cleaning of carpeted stairs. It was determined during review that the previous item was not the correct one. This is now functioning correctly.
 - Repaired option for final cleaning per SF when sanding a wood floor. This is standard estimating best practice. Due to database changes, the item was no longer populating. This is now functioning correctly.
- Water Mitigation
 - Repaired options for steam clean of carpet. Due to database changes, the item was no longer populating. This is now functioning correctly.
- Garage Doors
 - Repaired options for swing up wood overhead doors. Due to database changes, some of the items were no longer populating. Removed the option to select "Fancy" doors as these have been removed from the database. This is now functioning correctly.
- Siding
 - Repaired option for detach and reset of meter pan. The previous item has been removed from the database and replaced with more specific items. This is now functioning correctly.
- Low Slope Roofing

- Repaired option for prime & paint of various sizes of fascia. Due to database changes, some of the items were no longer populating. This is now functioning correctly.

Desk Adjuster Updates

(Fixes and Updates – Desk Adjuster)

- Asphalt Roofing
 - Repaired option for T-Lock Shingle ridge cap. Due to database changes, the item was no longer populating. This is now functioning correctly.
 - Repaired options for furnace vent pipe flashing. Due to database changes, some of the items were no longer populating. In one case, the wrong item was populating. This is now functioning correctly.
 - Repaired options for chimney chase covers. Items were no longer populating or were populating incorrect items. This is now functioning correctly.
- Interior Water Damage
 - Repaired options for steam clean of carpet and clean of garage floor (masonry). Due to database changes, these items were no longer populating. This is now functioning correctly.
 - Repaired option for prime/paint of wall when applying knockdown texture on a flood cut wall. Due to database changes, this item was no longer populating. This is now functioning correctly.
 - Repaired option for remove/reset of door slabs. Due to database changes, these items were no longer populating. This is now functioning correctly.
 - Repaired option for floor cover & protect when allowing for ceiling repairs. This is a standard estimating best practice. Due to database changes, this item was no longer populating. This is now functioning correctly.
 - Repaired option for reset (only) of toilets. Due to database changes, these items were no longer populating. This is now functioning correctly.
 - Repaired option for reset (only) of various appliances. Due to database changes, these items were no longer populating. This is now functioning correctly.
- Break In
 - Repaired option for manufactured home patio doors. Due to database changes, these items were no longer populating. This is now functioning correctly.
 - Repaired option for cleaning glass from carpeting. Due to database changes, this item was no longer populating. This is now functioning correctly if you choose to clean and not replace the carpet.
- Water Mitigation
 - Repaired option for Anti-Microbial Treatment, Thermal Fog. Due to database changes, this item was no longer populating. An input change was required to have this function correctly, and the selection is now per CF instead of SF.

- Wind
 - Repaired option for Homeowner Labor (Insured Labor Rate). Due to database changes, this item was no longer populating. This is now functioning correctly.
