Release Notes

CoreLogic Database Update
May 2023

Summary of Changes

- 212 new Item Operations added for the May Database Update

Database Updates

- Standard monthly material price update
- New Items Include: Commercial Exhaust Hoods, 36" & 48" Wall Cabinets, Quartz Countertops & Backsplashes, Residential Fire Sprinkler Systems, and more.

Claims Construction Bulletin

- To keep our clients informed of current market trends, CoreLogic® has curated a monthly bulletin of trending cost variations for various loss types by regions within the U.S.

Item Image Updates

- 35 new images were added for the May database update.
- 1739 total images are currently present in the database, covering 2939 specific line items.

Assembly Updates

(Fixes and Updates – Assemblies)

- Two new assemblies have been created and added for the May database release. The assemblies added are **"Ceiling Framing"** and **"Wall Framing"**.
- **Ceiling Framing**
  - This is an assembly that is available for use in loss scenarios that involve damage to a structure's ceiling framing. Users can use this assembly to estimate for common ceiling framing construction components and account for general estimating best practices. It can be used in either a room diagram or an entire floorplan.
- **Wall Framing**
  - This is an assembly that is available for use in loss scenarios that involve damage to a structure's wall framing. Users can use this assembly to estimate for common wall framing construction components and account for general estimating best practices. It can be used in either a room diagram or an entire floorplan.
- **Asphalt Roofing**
  - Options for cornice strips and cornice returns have been added to the assembly.
  - Options for steel and vinyl fascia have been added to the assembly.
  - Default answer value of K-Style has been set for non-seamless gutters in the assembly. This previously had no default value.
  - Updated alert notes throughout the assembly to be red color and bold to make these as visible as possible to the user.
- **Cabinetry**
  - Repaired countertop and backsplash titles to allow the estimate to display these when including countertop or backsplash options.
  - Repaired plumbing title so it only appears when appropriate
  - Updated cabinet grade information notes to be blue color and bold to make these as visible as possible to the user.
- **Flooring**
  - Repaired casing option to apply to door casing only when reset action is applied, was incorrectly applying to both doors and windows previously.
  - Repaired carpet extras title to appear only when applicable.
  - Updated alert notes throughout the assembly to be red color and bold to make these as visible as possible to the user.

Desk Adjuster Updates

(Fixes and Updates – Desk Adjuster)

- None
