## CoreLogic Database Update June 2023

### Summary of Changes

- 53 new Item Operations added for the June Database Update

### Database Updates

- Standard monthly material price update
- New Items Include: Asbestos Testing, Tension Ties, Cardboard Insulation Baffle & Pack Back Moving Truck, and more.

### [Pricing Analysis Inquiry](#)

- CoreLogic has completed enhancements to improve user experience with the process formerly known as “RFI”.
- The new process is called Pricing Analysis Inquiry.
- A detailed guide on how to submit Pricing Analysis Inquiries and what to expect with the enhancements made is outlined [here](#). A few highlights:
  - CoreLogic claims tools and software now include imbedded buttons/options to direct users to a dynamic, question and answer based, conditional logic driven form to fill out their inquiry.
  - Reporting is now available upon company request to enhance visibility into the status of your company inquiries.
  - Throughout the lifecycle of the inquiry, the submitter will be provided with status updates as inquiries move between teams & assignments, up to and including when the update will be released with a new version of the database.

## **Claims Construction Bulletin**

- To keep our clients informed of current market trends, CoreLogic® has curated a monthly bulletin of trending cost variations for various loss types by regions within Canada.

## **Item Image Updates**

- No new images were added for the June database update.
- 1739 total images are currently present in the database, covering 2939 specific line items.

## **Assembly Updates**

*(Fixes and Updates – Assemblies)*

- **Asphalt Roofing**
  - An image has been added to the cornice strip/return selections to better explain what these options mean for users.
- **Garage Doors**
  - Garage Door Sensors were added to the selections for residential garage door items.
  - Keyless Entry Pads were added to the selections for residential garage door items.
- **Windows**
  - Repaired an issue with paint grade window casing, it will now appear correctly based on selections.
